

## Welcome to ESSMANN GROUP

ESSMANN GmbH is headquartered in Bad Salzfluren and develops flat roof and facade building systems for daylight illumination, aeration, ventilation and smoke extraction. These are enhanced by complementary drainage systems. ECODIS S.A.S, which is based in Lyon/France, and EURO SISTEMA INCENDIO (E.S.I.) offer similar products to satisfy the needs of the Southern European market. MSG GmbH & Co. KG - a reliable specialist for the professional installation, maintenance and repair of daylight illumination, aeration, ventilation and smoke extraction systems - is a member of ESSMANN GROUP. STG-BEIKIRCH Industrieelektronik + Sicherheitstechnik GmbH & Co. KG - a further system partner within ESSMANN GROUP - operates in the field of development, project planning and production of electronic systems for the entire range of smoke and heat extraction and ventilation systems.
